Dear CACTUS participant, welcome to the CACTUS’10 program!

First of all, I can’t quite express how excited we are to see you here. Many of you came a long way to Ternopil, traveled many miles and spent many hours in hot trains and buses.

For us, a 30-strong international staff, coming from 4 continents, the journey has been even longer.

Even though we’ve only been here in Ternopil for 4 days now, it all started much earlier. By now, it has been over a year since we started working on CACTUS’10 and, finally, we are all here; all ready.

During the next 10 days, you will have many new experiences and adventures, meetings of many new people and exploring what CACTUS’10 has to offer.

There will be times when you may feel tired or even frustrated. We urge you to try to get the most from the program: get immersed into team competitions, create an innovative project, and fall in love with the atmosphere the beautiful city of Ternopil! We are confident you will find your own place at CACTUS.

Be open and be yourself, and remember how thrilled are we to have such an active and talented group of youth with us!
